Advocate for Isayas ?? No !!

Advocate for Andargatchew ?? Yes.

Our protest forced the ethiopatritots to remove the picture of Andargatchew as "banda" from its page. The huge protest in support of Andrgatchew all over the diaspora proves that I am not alone. I also called for the human rights violation by Isayas to be raised by ESAT. I have not called Isayas a new breed of leader like Clinton in the 1990s.

I rejected Andargatchew book titled "YeAmaraw Tigel Keyete Wedet " printed almost twenty years ago. Andargatchew was carried out by ethnic politics when he joined Woyane in 1991. Later on he wrote a book "Nesaneten Yemayawk Nesawtche" which I did not read denouncing Woyane.

I also disagreed with Andargatchew when he publicly endorsed Isayas Afeworki as a "loved leader" on ESAT in 2014.

On StraightTalk Africa TV I asked the Ambassador of Eritrea about the abduction of Colonel Tadesse Muluneh few years ago. Is that advocating for Isayas or Colonel Tadesse the Victim ??

Our difference with you might be tactical but strategically both of us have the same goal. One Ethiopia equal for all her citizens. The ups and downs of our struggle for more than 23 years has brought a lot of frustration and intolerance to each other in the opposition camps views. Disagreement is healthy in democracy need to debate without name calling.

Take Care,
